## EXPLORERNAUTS: KIDS WALKING APP KEEPS THE HALLOWEEN SPIRIT ALIVE

- Explorernauts provides the perfect alternative to traditional Trick or Treating -

Explorernauts, the family app that turns any walk into a thrilling adventure, has released a free *Howling Halloween* pack offering kids the ideal alternative to traditional Trick or Treating.

The brand-new Halloween edition lets parents and guardians set up their own Halloween treasure trail, using virtual markers placed on a map following a route of their choice. Routes can be set anywhere, allowing anything from a short stroll around the block, a trail in the park or an imaginative quest further afield.

This unique functionality gives families the flexibility they need to head out on a Halloween adventure while adhering to any local social restrictions. An ideal way to keep the spirit of the season alive, the app offers kids a costumed adventure without the need to knock on doors.

The free *Howling Halloween* pack comes with a pre-built ghostly tale, challenging children to defeat a range of spooky adversaries and save Halloween. Parents and guardians can also use the custom-designed Halloween markers to create their very own eerie adventure.

Explorernauts is free to download, contains no advertising, stores no personal data, and does not require registration or subscription.

### Challenging Questions, Halloween Treats

Explorernauts even allows families to turn their Halloween adventure into an age-appropriate educational quiz. Users set the age of participants who are then served a multiple-choice question at each marker, with correct answers gaining points for the player. Parents and guardians set their own prizes and define the number of points required to achieve them.

It takes just a couple of minutes to set up a trail and parents and guardians can set the route, markers and Halloween treats to offer as prizes.

Explorernauts is [available now to download from the App Store](#) and is free with no in-app purchases or subscriptions. For more information visit: [explorernauts.com](http://explorernauts.com)
